

North London Business Park COMMUNITY FACILITIES

CGI of the new school

Given the scale of the development, a priority when developing these plans was to give something back to the community. The plans will deliver new school facilities for St Andrew the Apostle School and new outdoor sports fields. These will help provide for both new and existing residents and all are welcome to use these facilities.

St Andrew the Apostle School

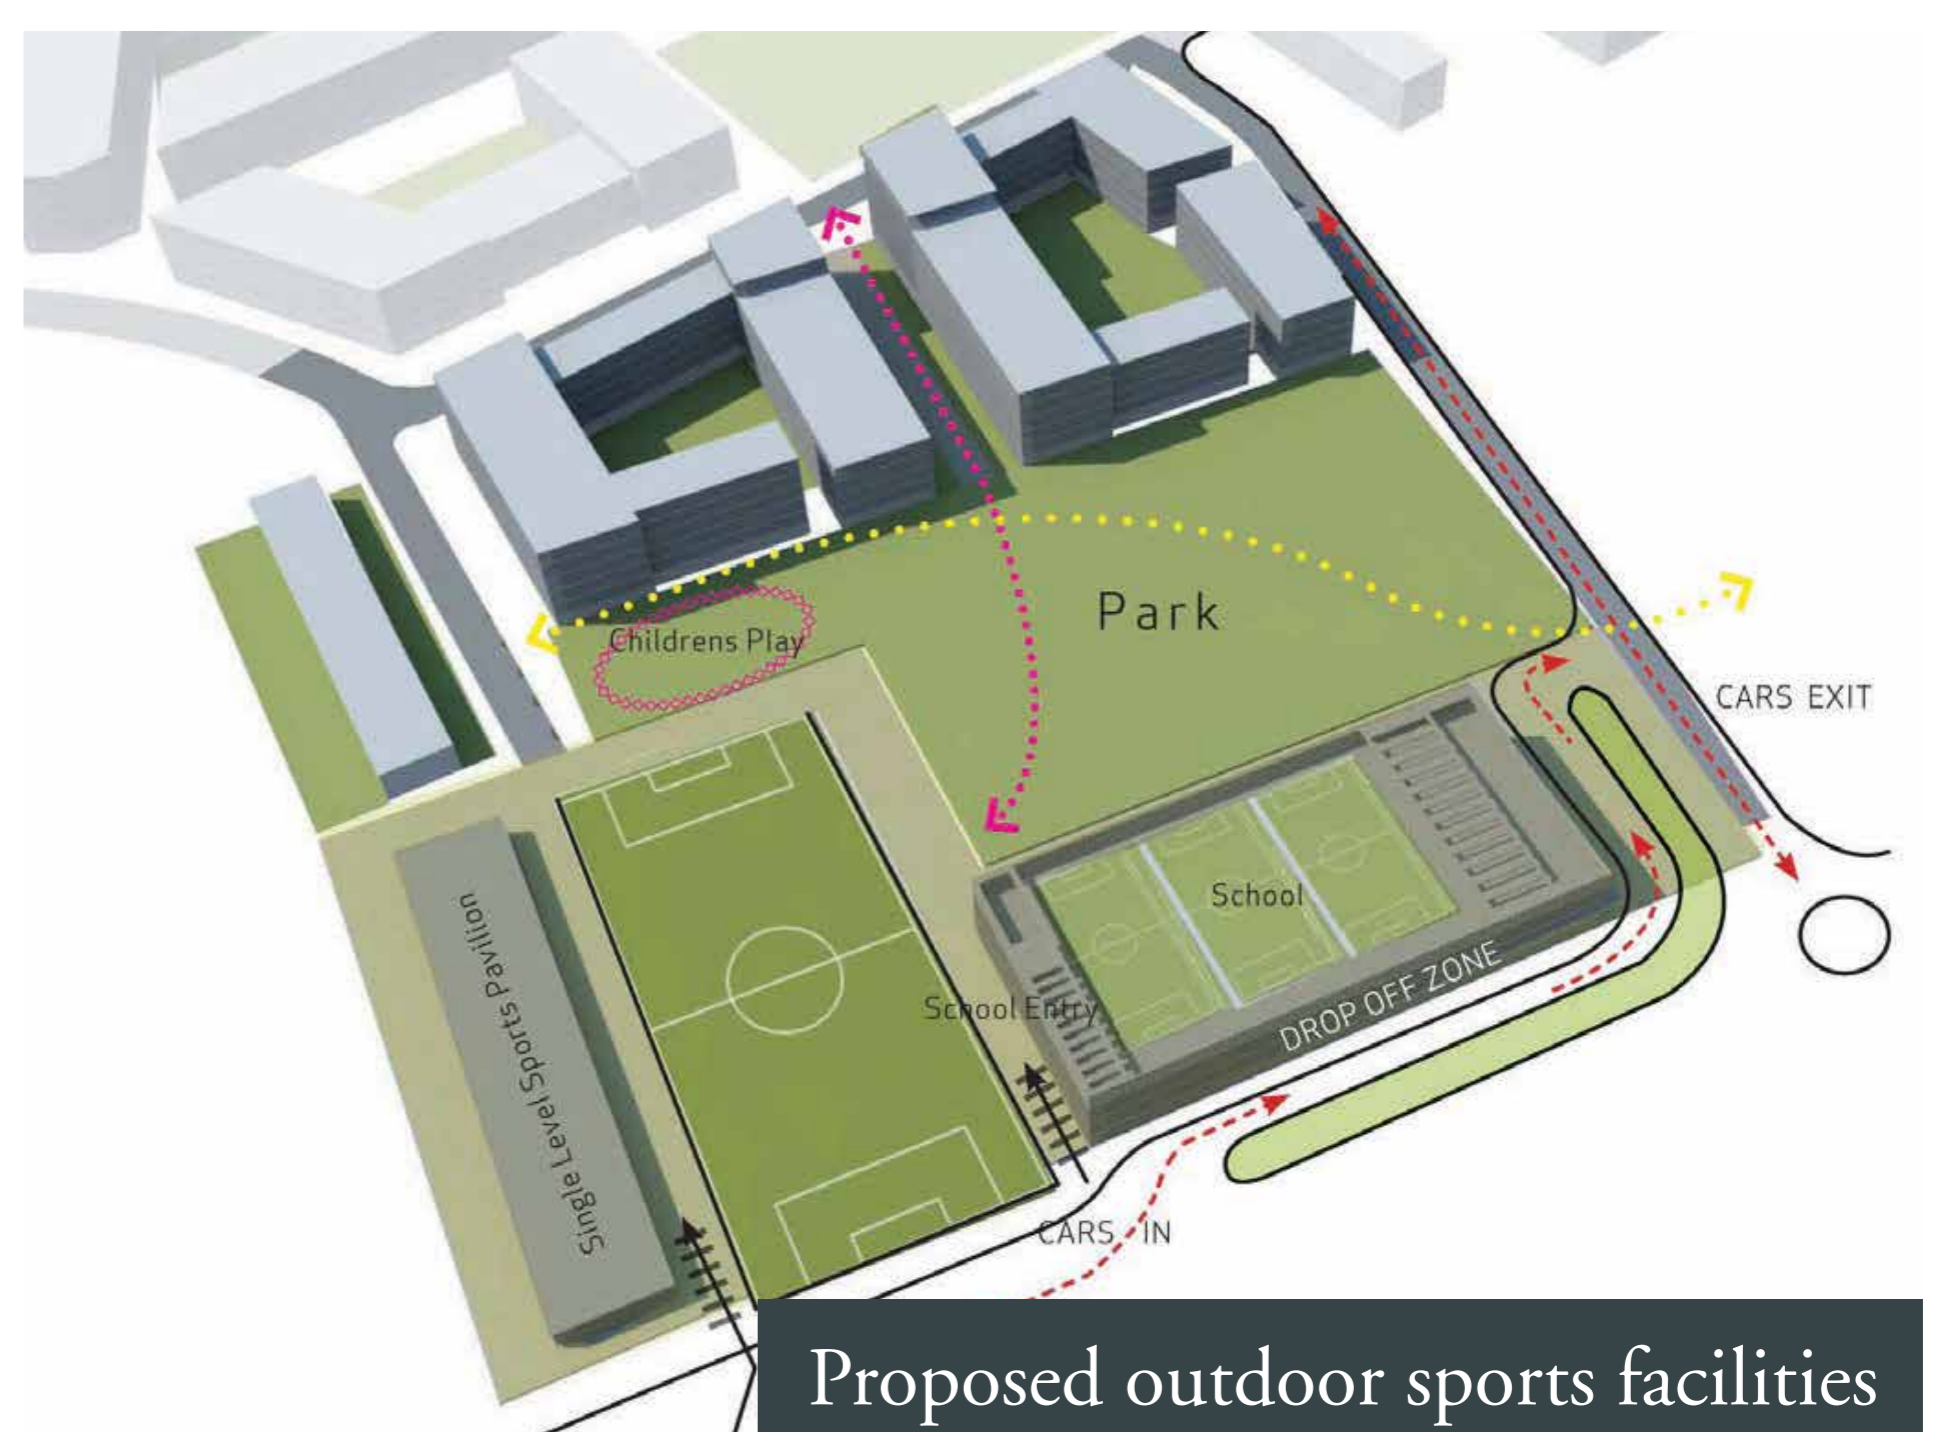

Comer Homes have gifted an area to the East of the site along Brunswick Park Road to St Andrew School to deliver the new school buildings. The school will be bringing forward their own plans for the site and will be seeking a separate planning permission. The school have recently conducted a webinar showcasing the plans for the new school and you can view the presentation used by clicking [here](#)

Sports Facilities

A large space on the site will be allocated for new sports fields primarily for after school activities but it will also be accessible for both new and existing residents. Included in this space will be new sports pitches as well as further open areas suitable for a variety of activities.
